

NOME	Resíduos e seu tratamento (19/6)	Ocupação do território (26/6)	Poluição (03/07)	Industrialização (17/7)	Biomass (24/7)	Agricultura e serviços ecossistêmicos (31/7)	Risco/vulnerabilidade/resiliência/adaptação (7/8)	Urbanização (14/8)
Eduarda Almeida Copati				Evaluation of a solar-driven adsorption desalination system for Brazilian semiarid region	Carbon sequestration potential of second-growth forest regeneration in the Latin American tropics			
FERNANDA HENRIQUE DE SOUZA	Enhancing door-to-door waste collection forecasting through ML		Zero-emission medium- and heavy-duty fleet operation: The perspectives of stakeholders					Estimating urban areas: New insights from very high-resolution human settlement data
Flavio Henrique Boim de Souza					Ecological amnesia: Why societies repeatedly forget environmental lessons		Integrated Climate, Pest, and Disease Risk Indicators for Pinus Plantations Under Current and Future Climates	
Henry Patricio Zambrano Armijos		Environmental impacts of afforestation activities under the Billion Trees Afforestation Project in Pakistan: a life cycle assessment approach					The health effects of climate change: identifying strategies, policies, and knowledge gaps – an umbrella review.	
Jessica Cristina Soares Eulalio	Air pollution and its impacts on health: Focus on microplastics and nanoplastics			Impact of the car fleet evolution on electricity demand in Québec				
Jessica Oliveira de Lima			Evaluating access capability after Low Emission Zones implementation: a spatial distribution analysis				Social Inequality Effects of Climate-Change-Related Disasters: A Systematic Literature Review in the Context of Developing Countries	
Joao Vitor da Silva Brito					The effect of shifts in fish community structure on PCDD/F temporal variability in common guillemot (Baltic Sea)	To clear-cut or not to clear-cut: Diversifying benefits from small-scale forestry in Sweden		
MARILENE OLIVEIRA COSTA			Site-specific framework of sustainable practices for a Brazilian contaminated site case study	The impact of landfill operation factors on improving biogas generation in Brazil				
Marina Schkolnick Soares Leite						Aplicações práticas dos serviços ecossistêmicos no planejamento territorial: Lições aprendidas a partir de uma revisão sistemática da literatura		Mechanisms and thresholds of land use affecting surface water quality in Hangzhou City's residential areas
Mayke Santos de Oliveira	Biochar as a sorbent for contaminant management in soil and water: A review				Geoheritage and Threats to Geodiversity in Central Espinhaço Range, Minas Gerais – Brazil			
Rafael Costa E Silva						GIS and remote sensing based delineation of groundwater potential zones in a semi-arid irrigated agricultural watershed using AHP and Fuzzy-AHP		Urbanization driven land cover change and floodplain transformation in the Ogun River Basin using HAND and CA-Markov models
Rodrigo Sagaseta de Oliveira Souza			Between the local and the regional: A multiscale analysis of urban air pollution in São Paulo			Optimizing land use decision-making to sustain Brazilian agricultural profits, biodiversity and ecosystem services,		
Solomon Oluwole		Austerity Infrastructure, Gentrification, and Spatial Violence: a ceaseless battle over urban space in Exarcheia Neighborhood						Urbanization drives divergence in functional diversity and composition of woody plant communities in remnant forest patches
Valdson Fraga de Oliveira					Brazilian Biodiversity as a Source of Power and Sustainable Development: A Neglected Opportunity.		Remote sensing based assessment of urban microclimate extremes, surface water dynamics and vegetation feedback.
